Study of agriculture, from east to west

Upper left: Pictured are visiting scientists and an exchange graduate student from China. Chunling Zhang will be studying at UGA-Griffin for two years and is from the China Agricultural University. Dr. Aijun Hu, associate professor from the Tianjin University of Science and Technology, and Dr. Jianlong Fang, from the Chinese Center for Disease Control and Prevention, are both conducting research with Dr. Yen-Con Hung, food science professor at UGA-Griffin.

Lower left: Dr. Aijun Hu presented an overview of his research in Sonochemistry in Food to a group of visiting scientists at UGA-Griffin. His research more specifically involves the use of ultrasound to enhance the safety and quality of fresh produce.
