

ANNUAL SOUTHEASTERN TURFGRASS CONFERENCE

May 16, 2017

Tifton, GA

UGA Tifton Campus Conference Center

The 71st Annual Southeastern Turfgrass Conference will be held on Tuesday, May 16th at the University of Georgia, Tifton Campus Conference Center. If you are going to be in Tifton on May 15th, please join us for **Dinner at the Golf Club of South Georgia at 6:30pm**. Program details and directions will be available shortly, but this year we are coordinating the Southeastern Turfgrass Conference with an annual USDA Specialty Crop Research Initiative grant meeting. It is our intention to not only have an update on the **newest developments in Georgia turf cultivars and their management** during the educational sessions, but also include new speakers and topics from Texas A&M University, Oklahoma State University, NC State University, and the University of Florida. Some topics to be covered this year will include:

- Turfgrass Breeding Updates from across the Southern U.S.
- Weeds and Herbicides
- Diseases and Fungicides
- Insects and Insecticides
- Turf Management and Fertilizers
- Drought Resistance and Irrigation
- Bermuda and *Zoysia* Putting Greens
- Persistence, Survival and Recovery of Turfgrass for Sustainable Urban Landscapes Under Limited Irrigation and Long-Term Drought
