- The ability to design, coordinate, and teach educational programs to meet community needs; and
- A Bachelor’s degree in Horticulture, Crop & Soil Science, Plant Protection & Pest Management, General Agriculture, Animal Science, Forestry, Agricultural Economics, Agribusiness, Agricultural Education or closely related area (a Master’s degree is strongly preferred).

Major Responsibilities:
- Responsible for managing the Agricultural & Natural Resources program in the county by providing educational opportunities in horticulture and environmental resources to a wide variety of audiences utilizing a variety of teaching methods.
- Utilizes the expertise of advisory groups, community leaders, public officials and representatives of intended audiences to analyze data, identify needs, and assist in developing educational programs.
- Develops a plan of work that is equitable in meeting the varied socio-economic needs of the county.
- Targets specific audiences for educational programs addressing critical issues identified in plan of work.
- Implements the CAES Civil Rights/Equal Opportunity plan and ensures that clientele understand that UGA Extension offers its educational programs, assistance, and materials to all people without regard to race, sex, gender identity, color, ethnicity or national origin, religion, age, disability, genetic information, sexual orientation, or veteran status.
- Develops and conducts relevant interdisciplinary programs with other staff members based on critical issues.
- Collaborates with other agencies and community groups to plan and implement programs.
- Conducts promotional efforts to expand the public’s view of extension programming.
- Utilizes current research data and information on emerging issues in program development and teaching.
- Demonstrates personal interest and involvement in community by participating in and supporting civic/community activities/organizations and networking with community leaders.
