Our CAES Information Technology email communications listserv lists are divided into two primary sections. The OIT section incorporates all OIT staff members, which includes CAES OIT Support Services teams and Information Systems teams. The Partners section incorporates outlying IT staff groups that work closely with CAES OIT. The Partners section includes non CAES OIT staff from Extension (4-H, FACS, etc.), Griffin Campus, Tifton Campus, Athens Campus.

As indicated by the legend located in the lower left corner of the chart, the purple lists are sub-lists to the blue lists, the blue lists are sub-lists to the green lists, and the green lists are sub-lists to the red list. Therefore, if an email is sent to the red ‘caesit-all’ list, everyone on that list and any of the lists below it will receive the email. Think of it as a parent/child relationship where the parent list is sent an email, then all the children lists receive the email as well.

On the OIT side of the chart it is setup so that no matter what list you are on, you will be able to send to all other lists on the OIT side, ex. ‘caesoit-spprgms’ can send to ‘caesoit-athsup’ or ‘caesoit-support’, but cannot send to the blue lists on the Partner’s side, ex. ‘caesoit-spprgms’ cannot send to ‘caesit-tif’.

If you are a member of one of the blue or green sub-lists on the Partners side of the chart, you can send to your own specific list, but you cannot send to any other lists except ‘caesit-all’ and ‘caesit-partners.

All lists should be able to send .pdf and .docx files.
College-Wide IT Distribution Lists
Listserv Chart Explanation
